

QUARTZ GRILL/SALAMANDER - MANUAL

1、 Presentation of the equipment

- This toaster salamander with quartz tubes to defrost, brown, glaze, grill or toast.
- The infrared quartz tubes provide an immediate cooking facility without a preheating period without smoke or smell transmission.
- They are made with stainless steel fitted with an adjustable cooking.

2、 Working

Our toasters are fitted with :

- ☐ 4 positions commutator
- ☐ 15 minutes timer

Cooking with infrared radiations does not require pre-heating.

Warning: for safety reasons, your products should always work with the drip tray.

3、 Cleaning

- Before cleaning, turn your appliance off the mains and let it cool.
- Do not allow the skin to come into contact with quartz tubes.
- Clean the tubes with a cloth spacked with alcohol.
- Do regularly clean the metallic walls of your appliance with a wet sponge and some washing-up liquid.
- Grills should not be washed with an abrasive sponge.
- Do not wash your appliance under running water as filtering might damage it.

4、 Installation

- You must not put the lateral sides of your appliance close to a wall or a partition made in a combustible material.
- A 30 cm distance from the partition level is recommended.
